

Sports Premium – Actions and Impact

Overview of spending:

This document explains how we have allocated our Sports Premium Funding for the 2017/18 Academic year based on the five key indicators developed within school.

Key Indicator 1: Engagement of all pupils in regular physical activity.

A key aim for us at Park Hill is to provide all children with high quality PE and Sport provision. No matter what year group or sport, all children are entitled to outstanding lessons and in order to achieve this, we have initiated 'The Daily Mile' to encourage all children to take part in additional physical activity. To facilitate this, we have contacted an external company to set up an online tracking system for all pupils and have remarked the playground to include a daily mile course. We intend to promote physical activity by inviting specialist companies into school to deliver assemblies alongside participating in whole school events such as 'The Body Coach School HIIT Sessions'. The outcome of this is that children will be able to take ownership over their participation within physical activity. A team of Year 6 sports leaders have applied and been selected to support each class with the daily mile and they have completed the 'Play Maker' training to start sessions of their own (£47 for the year).

Key Indicator 2: Increase the profile of PE and Sport across the school.

Celebration assemblies within school will highlight the importance of physical activity alongside celebrating the achievements of the pupils within school each week. Children will then be inspired to take part in sport so they can share their achievements with the rest of the school. Other assemblies such as dance assemblies will offer children an opportunity to showcase their skills from extra-curricular sessions. This will also act as a tool to persuade other children to join the clubs. An additional sport noticeboard in the main hall way will advertise all of the clubs on offer to pupils with the spaces available. One off sessions with Wasps Netball, Coventry City Football Club, Warwickshire County Cricket, Warwick University and Coventry Blaze Ice Hockey provide the children with inspiration to take part in PE and Sport within school. Sports Premium budget is allocated to cover transport and cover for associated teachers.

Key Indicator 3: Increased confidence, knowledge and skills of all staff in teaching PE and sport.

Staff questionnaires have been completed and a range of areas were identified where subject knowledge wasn't as high as the staff would have liked. From this, a staff CPD plan was developed to increase confidence and competence within the following areas; Football, gymnastics, striking and fielding games. In addition to this, Netball support was organised through Warwick University so that two members of staff could be upskilled to coach netball as an after school club. Cricket coaching from Warwickshire County Cricket Club has provided staff in Year 6 with the subject knowledge needed for high quality PE lessons. Finally, Gymnastics CPD and Football CPD have been booked for the whole school so that clear

differentiation and progression can be understood by all members of staff. As a result of this, all children can be challenged to fulfil their potential. Another questionnaire will be completed during the school year and relevant training and CPD opportunities will be provided for staff where applicable.

Key Indicator 4: Broader experience of a range of sports and activities offered to pupils.

We have spent a large proportion of our Sports Premium Budget to allow our Year 5 and 6 pupils travel to a local sports centre to have one of their weekly PE lessons delivered there. The additional space has resulted in a wide range of sports being delivered including; badminton, sports hall athletics and basketball. Without this facility, the children would be severely restricted if they were to take part in their PE lesson. Similarly, we have identified other local sports providers to deliver a wide range of extra-curricular clubs within school such as handball, hockey, tri-golf, badminton, table tennis, cross country and taekwondo alongside our regular clubs to provide opportunities to all children so it is not dominated by popular team based sports. This has resulted in over 260 children taking part in clubs within school.

Key Indicator 5: Increased participation in competitive sport.

The school regularly takes part in inter-school competitions, including the School Games Events. In order for pupils to attend the events, the school has spent £1,000 to contribute towards transport, covering staff who attend the competition and specialised sports kit for the children who attend on behalf of the school. The events include sports hall athletics, end ball, tennis, hockey and gymnastics. Alongside external competitions, we have regularly organised friendly matches in a range of sports with other primary schools in the local community. As previously stated, a total of £1,000 has been allocated to cover the cost of transport, kit and covering staff who attend. This includes the school’s participation in the Harry Shaw cup, the Coventry Schools Football 5-a-side competition and the English Football League (EFL) schools cup competition. Staff CPD will also be focussed on delivering school sports day during the summer whereby all children in school will compete in an event for their house team.

***Additional funding will be used to support the school’s application for a multi-purpose sports facility to be built as part of the FA’s Mini Pitch Scheme in July. The facility will provide additional space for physical activity during break times, PE lessons, extra-curricular clubs, competitions and staff CPD.**

Sport Premium Spending by item/project 2017-2018			
Item/ Project	Cost	Objective	Impact
Elite Sport Coaching	£6,000	To provide high quality sport and PE	Year 3 and 4 cohort benefitting

		provision for Year 3 and 4.	from high quality PE provision for one hour each per week.
Elite Sport Coaching After School Clubs	Included in price.	To provide a range of extra-curricular sports clubs. (Changed half termly.)	Pupils benefit from a wide range of sports available for them to participate in after school.
Coventry Sports Foundation (Xcel Leisure Centre)	£7,520	To provide high quality sports provision alongside top-up swimming for Year 5.	Year 5 have benefitted from high quality coaching and facilities to improve physical literacy and achieve their 25m swimming badge. 77% reaching NC standard.
Coventry Sports Foundation (Xcel Leisure Centre)	£4,000	To provide high quality sports provision for Year 6.	High impact for Year 6 through high quality coaching and facilities for 2 hours per week.
Ridley's Transport	£9,000*	Transport to and from the Xcel Leisure Centre.	Allowing pupils to attend Xcel for PE lessons and swimming.
Inter-School competitions Inc. School Games Events	£1,000	Transport to and from competition based within Coventry.	Transporting children to school games events and other competitions.

PE Coordinator cover	£1,000	Provide cover for PE Coordinator to plan and organise events within school.	Allowing PE coordinator time to plan and organise teams, competitions, matches and after school provision. Enabled coordinator to target key individuals to take part in extracurricular activities.
PE & Sport Equipment	£300 + Sainsbury's Get Active Vouchers + Sport Kit	To provide pupils with suitable and high quality equipment for PE lessons and extra-curricular activities.	Enabling pupils to take part in a range of sports and activities by using suitable equipment for their age group.
Sports Leaders UK	£48	Sports Leader award scheme for Year 6 children.	Children were accountable for logging miles from the daily mile, begin to manage structured activities on the playground for themselves and support during sports day.
Extra-Curricular Sports Clubs (External Providers)	TBC	Offering high quality sports clubs every half term to children in KS1 and KS2.	Providing pupils with high quality sessions each week and local club links to maintain positive attitudes towards sport.
Playground Markings	TBC	To give more stimulus to children	Giving more stimulus for

		within school during play times and lunch times.	children during lunch times to direct their own activities and games.
Other –allocated for additional needs when required E.g. Wasps Community Netball day. Premier League Reading Stars Project	£70 £100	Providing children with the opportunity to attend community days and unique sports events that are organised by local clubs.	Supporting children’s engagement in sports and providing an opportunity to inspire them and maintain positive attitudes towards PE and physical activity.
Total Sport Premium Grant Received	£ 15,000		
Total Sport Premium Grant Expenditure		£29,038	
Sport Premium Grant Remaining		£N/A	

*Voluntary weekly contribution from parents to support this.

Overview of impact:

All in all, we believe that the cost of the provision this year hasn’t been justified from the quality and consistency we had hoped for. Each week, Year 5 and 6 have been travelling to the Xcel, where the facilities are fantastic, however the quality of coaching hasn’t been at the standard we expect. Our financial investment each week should ensure that every child in each year group has high quality physical activity to meet the expectations of the curriculum, however this hasn’t been the case. Although it has been a valuable experience for them taking part in PE outside of school, we aren’t able to monitor progress as closely as we would have liked and staff are being deskilled due to the lack of teaching. This is a similar picture with Elite Sports Development on a Monday and Tuesday within school. The coaching has been of a better quality and the staff have mostly been consistent, however using them for PPA cover has been ineffective and again, staff are being deskilled. Following my staff audit, there is a need for PE CPD across KS1 and KS2 in games, dance and gymnastics and the school would benefit more from targeted input and team-teaching. This would also solve our issue with monitoring attainment and progress in PE and we would save additional costs through travel.

Next Steps for Academic Year 18/19:

Moving forward, we will suspend all external organisations delivering Physical Education in school so that we can be more effective with our Sports Premium funding. For example, we could use the

companies to target children in breakfast or afterschool clubs that struggle to engage in PE or children who have a poor attitude/perception when it comes to physical activity. This will save us approximately £26,520 next academic year (including travel) which can be spent on Staff CPD, Competitions, Equipment and targeted sessions. These sessions will then be monitored closely to assess the impact and can be reviewed when necessary.

We aim to invest in a new PE Curriculum which will engage all children and provide clear progression pathways to follow. We will streamline a new approach with our current approach so that children are able to compete at local matches and competitions when necessary throughout the year. The platform will be inclusive so that all children receive high quality PE and we will ensure that training is given to all staff to enable them to teach their lessons competently. This will create a more sustainable model within school where staff are regularly subject to more training within physical education. Finally, having a clear assessment tool with the platform will allow staff to monitor progress accordingly.

Some of the money saved could be used to subsidise the salary for an in-house PE specialist, who can team-teach with other members of staff within school alongside fulfilling a job share in class. For 2 ½ days per week, the PE Specialist will work with different year groups throughout the school to ensure high quality delivery is consistent as well as supporting teachers professional development, managing the assessment of PE and mapping out the curriculum for the whole school. With everything being delivered within school, there is an increased level of accountability and better feedback to school staff and the head teacher about the progress the children are making and the increase in staff confidence and competence when delivering PE. Similarly, specific School Games competitions can be targeted so that the children are prepared to participate in the event and consequently, a large proportion of our pupils will be exposed to the inter-school competition element of PE.

Mini Pitch – The story so far:

The application of interest was submitted Autumn 2017 and we were accepted at the end of the term. An initial meeting was held mid-January to explain the aims and terms of the project. This included a funding target of £20,000, but it was not explained to us that we must reach this. As long as the school community engaged in fundraising and advertising the pitch, there is no reason why we could not proceed.

We have held a range of events since then (supported by staff, parents and the PTA) including; Valentine's disco, Arts and Crafts session, Easter Competition, non-uniform days, cake sale, copper coin race, raffle and bike ride to Wembley. We are finishing the fundraising with a 'Mini Pitch Day' at the end of the term where we will be supported by Sky Blues in the Community. We are currently on £8658 and we are expecting a £1000 donation from an ex-pupil, £880 in match funding from Lloyds Bank, Firefighters JFC are contacting their sponsors for an additional amount to donate to the pitch (Amount TBC) and the PTA have agreed to a further £1,200 (£2,000 in total). Along with our final event, we hope to raise in the region of £12,000. We have struggled to engage with local businesses for donations due to our current work commitments and a lack of support from Neighbourly.

Planning permission has been accepted by the local council and they have replied to acknowledge this. Currently, we are waiting on the council to sign the agreements for LaboSport so that SiS Sport can start the build itself. Current estimation is that the pitch will be completed by Christmas this year. We are being supported by the Football Foundation and the FA with activation plans, development plans and usage for the pitch. We will look to offer groups and companies a package deal where they could hire the grass pitch and/or hall along with the mini pitch. With revised usage on the pitch, we are currently renegotiating with local clubs to allow all parties enough access to the pitch at a time

that suits them. Operating times will now be up until 18:30 on week days and from 10:00 until 16:00 on Saturdays.

When running the facility, we look to accept support from Sky Blues in the Community where they will help with paperwork and bookings. Also, having them involved in the site will increase its kudos significantly.

We would like to take the opportunity to thank our governing body, the staff, parents and local community for their support so far.
